MOTION BY SUPERVISOR ZEV YAROSLAVSKY

December 16, 2003

If the State continues to fail to backfill the revenue loss to California cities and counties from the vehicle license fee (VLF) reduction, Los Angeles County will have to cut \$735M out of its current year operating budget. A cut of that magnitude will result in catastrophic reductions in public safety and other essential governmental services.

I, THEREFORE, MOVE that County Counsel advise the Board in closed session on the legal options for joining or initiating litigation against the State for restoration of the Vehicle License Fee backfill, and that the Board consider exercising its options.
